Education

Savitribai Phule Pune University (SPPU) Nov 2022 – May 2026
B.E. in Artificial Intelligence & Data Science *Pune, India*

– **CGPA:** 8.88

Technical Skills

Programming Languages: Java, Python, JavaScript

Full Stack Dev: HTML, CSS, React.js, SpringBoot

Data Science: Pandas, NumPy, Scikit-learn, Exploratory Data Analysis

Databases: SQL, MongoDB

Tools: Git, GitHub, VS Code, Kaggle

Projects

Agrosphere – Personalized Scheme Navigator for Farmers
Tech: React.js, Java, Spring Boot, Python (Machine Learning), Flask, MySQL, REST APIs, Git/GitHub 2026

– Built a web-based platform to recommend government **welfare schemes** using farmer-specific data.
– Implemented a hybrid eligibility and **recommendation engine** using Spring Boot and Python ML.
– Integrated React frontend with REST APIs and MySQL for end-to-end personalization and scalability.

NavEye - AI-Enhanced Assistive Navigation System
Tech: Python, YOLOv8, Flask, Raspberry Pi 3 2025

– Designed a real-time object detection system to assist **visually impaired** users with obstacle awareness.
– Integrated **YOLOv8** for real-time inference with audio feedback using Flask, deployed on **Raspberry Pi 3**.
– Won **1st Prize** at college-level hackathon; project submitted to Smart India Hackathon 2024

Personal Portfolio Website
Tech: Java-Script, HTML, CSS, GitHub, Netlify 2025

– Developed a fully **responsive** personal portfolio to showcase projects, skills and experience.
– Implemented modern UI with smooth scrolling, **interactive** components and optimized layouts for mobile and desktop.
– Integrated sections including About, Projects, Experience, Education and Contact with a working contact form.
– Deployed on Netlify with a custom domain: **https://personalportfolioswapnil.netlify.app**

Experience

NeuAI Labs Dec 2024 – Feb 2025
Data Science Intern *Remote*

– Developed insightful visual dashboards using Matplotlib and Seaborn to support **data-driven decision** making.
– Performed data cleaning and preprocessing using **Pandas and NumPy** to prepare structured datasets for analysis.
– Analyzed ride records to identify peak demand trends, improving understanding of time-based ride distribution.
– Applied analytical thinking and **problem-solving techniques** to extract insights from transportation datasets.

Certifications

- Data Structures & Algorithms — Udemy
- Software Development — Microsoft
- Data Science — Oracle

Achievements

- Solved **170+ Data Structures and Algorithms problems** on LeetCode, strengthening problem-solving skills.
- Winner of Intercollege **Hackathon** for developing an assistive navigation system.
